

HOW TO

Prevent fruit fly in your garden

Follow our tips on the back of this flyer or visit fruitfly.sa.gov.au for more information and to find out what fruit and vegetables are at risk.

HOW TO

Prevent fruit fly in your garden

Follow our tips on the back of this flyer or visit fruitfly.sa.gov.au for more information and to find out what fruit and vegetables are at risk.

Follow our tips to help protect your garden from fruit fly.

Pick

Promptly pick your ripe fruit and vegetables. Prune fruit trees so you can pick more easily next season.

Collect

Collect fallen fruit. Dispose of it safely for your area - visit the fruit fly website or call the Fruit Fly Hotline to find out how.

Check

Check your fruit for blemishes and maggots.

Call

If you suspect fruit fly, seal the fruit in a plastic bag and call the Fruit Fly Hotline on **1300 666 010**.
